

# Vehicle Detector Products

Nortech's range of parking and traffic detectors satisfy a wide range of applications and budgets.

All of our detectors are extremely robust and have been designed to monitor vehicle activity above an inductive wire loop buried under the road surface.

The detectors can be programmed to provide status/event data via relay contacts or opto-isolated outputs to external control/monitoring equipment. The outputs can indicate the presence or movement of a vehicle over the detection loop(s), together with information relating to its direction of travel, speed, length, headway, etc. as required by a particular application. They can also indicate any fault detected in the loop.

## Product Families

3-Series Parking

8-Series Parking

8-Series Traffic

## Common Benefits

- ▶ Compact size & elegant styling
- ▶ Robust design
- ▶ Single/dual channel options
- ▶ Diagnostic capabilities
- ▶ Select-able permanent presence
- ▶ Loop isolation protection
- ▶ Automatic Sensitivity Boost

## Applications

Parking Barrier

Motorised Gate

Safety Loop

Traffic Control

Arming Control

Vehicle Counting

# 3-Series Parking Detectors

## Key Features

- ▶ Proven reliability over many years
- ▶ Compact size & elegant styling
- ▶ Plug-in in relay style mount
- ▶ Settings via front panel switches
- ▶ Diagnostic capabilities using DU100
- ▶ Permanent presence selection
- ▶ Loop frequency indication
- ▶ Automatic Sensitivity Boost (ASB)

## Operating Principle

**DU100**  
Detector diagnostic unit

## 3-Series Diagnostics

### Ordering Information - 3-Series Single Channel Parking

- PD132** Single channel, boxed, 230V AC
- PD134** Single channel, boxed, 12-24 V AC/DC
- DU100** Detector diagnostic unit

### Ordering Information - 3-Series Dual Channel Parking

- PD232** Dual channel, boxed, 230V AC
- PD234** Dual channel, boxed, 12-24 V AC/DC

# 8-Series Parking Detectors

## Key Features

- ▶ Smaller DIN rail mounted detector
- ▶ Remotely accessible
- ▶ Multiple, linked detectors
- ▶ Tailgating, fault identification, classification
- ▶ Fully configurable via Integr8 application\*
- ▶ WiFi Diagnostic Unit – Stand-alone Access Point or joins Local Network
- ▶ Connect up to 4 synchronised, dual-channel detectors
- ▶ Simplified stock holding: Only 2 power supply variants
- ▶ 5-Year manufacturer's warranty
- ▶ Available with Relay or Opto-isolated outputs
- ▶ Relay – 2 Configurable relays with both N/O and N/C contacts exposed
- ▶ Opto – 3 Configurable / Assignable Outputs
- ▶ Response time < 50ms
- ▶ Enhanced Automatic Frequency Selection
- ▶ Automatic Sensitivity Boost
- ▶ Indefinite Power Fail
- ▶ Fail Safe / Fail Secure

\* Integr8 Intuitive, easy-to-use, application available from iOS App Store or Google Play Store

## 8-Series Configuration & Diagnostics

**DU800**  
Detector diagnostic unit

**Integr8 App**

### Ordering Information - 8-Series Single Channel Parking

- PD182** Single Channel 90 - 230V AC
- PD182P** Single Channel 90 - 230V AC with opto outputs
- PD184** Single Channel 12 - 24V AC/DC
- PD184P** Single Channel 12 - 24V AC/DC with opto outputs
- DU800** Diagnostic unit for 8-Series detectors

### Ordering Information - 8-Series Dual Channel Parking

- PD282** Dual Channel 90 - 230V AC
- PD282P** Dual Channel 90 - 230V AC with opto outputs
- PD284** Dual Channel 12 - 24V AC/DC
- PD284P** Dual Channel 12 - 24V AC/DC with opto outputs
- DU800** Diagnostic unit for 8-Series detectors

# 8-Series Traffic Detectors

## Key Features

- ▶ Smaller DIN rail mounted detector
  - ▶ Remotely accessible
  - ▶ Multiple, linked detectors
  - ▶ Configurable triggers for speed, length and headway
  - ▶ Fully configurable via Integr8 application\*
  - ▶ WiFi Diagnostic Unit – Stand-alone Access Point or joins Local Network
  - ▶ Connect up to 4 synchronised, dual-channel detectors
  - ▶ Simplified stock holding: Only 2 power supply variants
  - ▶ 5-Year manufacturer's warranty
  - ▶ Available with Relay or Opto-isolated outputs
  - ▶ Relay – 2 Configurable relays with both N/O and N/C contacts exposed
  - ▶ Opto – 3 Configurable / Assignable Outputs
  - ▶ Response time < 30ms
  - ▶ Enhanced Automatic Frequency Selection
  - ▶ Variable overspeed/underspeed trigger
  - ▶ Basic length-based classification and trigger
  - ▶ Headway measurement and triggers
- \* Integr8 Intuitive, easy-to-use, application available from iOS App Store or Google Play Store

## 8-Series Configuration & Diagnostics

**DU800**  
Detector diagnostic unit

**Integr8 App**

### Ordering Information - 8-Series Single Channel Traffic

- TD182** Single Channel 90 - 230V AC
- TD182P** Single Channel 90 - 230V AC with opto outputs
- TD184** Single Channel 12 - 24V AC/DC
- TD184P** Single Channel 12 - 24V AC/DC with opto outputs
- DU800** Diagnostic unit for 8-Series detectors

### Ordering Information - 8-Series Dual Channel Traffic

- TD282** Dual Channel 90 - 230V AC
- TD282P** Dual Channel 90 - 230V AC with opto outputs
- TD284** Dual Channel 12 - 24V AC/DC
- TD284P** Dual Channel 12 - 24V AC/DC with opto outputs
- DU800** Diagnostic unit for 8-Series detectors
