Nortech Bulletin - Issue 36 - Autumn 18
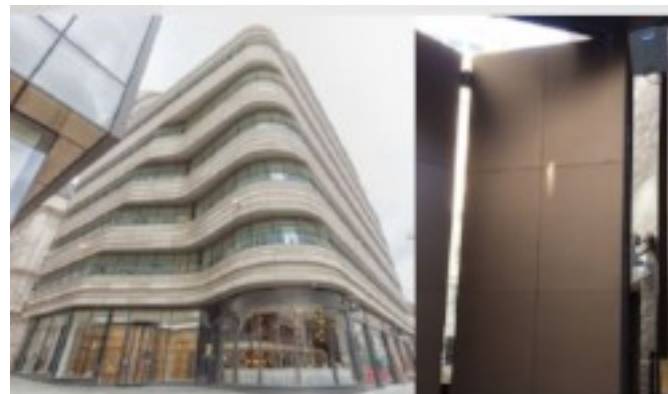

PRODUCT REVIEW - FULL COLOUR MULTI-LEVEL MESSAGE SIGNS

Nortech has launched its new large 5-digit RGB, LED, VMS signs with automatic luminance adjustment using the built-in ambient light sensor.

This new high intensity, full colour, LED sign is fully compliant with European VMS standard EN12966 offering bright, clear messages indicating available spaces and status messages. It is robust and weatherproof and depending on the application, up to 8 individual displays can be connected on a single RS485 bus, each displaying a different count value.

UPASS TARGET MONITORS TRAFFIC FLOW AT ST JAMES' MARKET

Supplied by Nortech, Nedap's uPASS Target was installed by Total Support Services (Security) Ltd, who was selected to supply the robust solution for long-range identification to its recently installed security gates at St James' Market.

The challenge was to provide a seamless yet secure access control solution providing a robust vehicle identification system allowing deliveries to its luxury retail stores and restaurants in Regent Street London.
