

## Nortech Bulletin - Issue 39 - Winter 2019

### Product Review: NorParc® for Parking Space Management

Nortech's [NorParc®](#) PC-based car park count management system supports a range of Nortech's [vehicle detection](#) and counting products to monitor the [availability of free parking bays](#) over multiple car parks and provide [guidance](#) to customers as they arrive to search for available spaces.

Call **01633 485533** for more details or download brochure [HERE](#).

### Sainsbury's Car Park Signs get an Upgrade in Truro

[Nortech](#), in partnership with [Access Automation Limited](#), has helped Sainsbury's to make it as easy as possible for

customers to find an empty parking space. Having already successfully used a previous Nortech system before, Sainsbury's in Truro looked into the possibility of an [upgrade](#).

This included a full colour, multilevel, 2-tier [variable message signs](#) to help customers find free parking spaces in their on site two-storey car park.

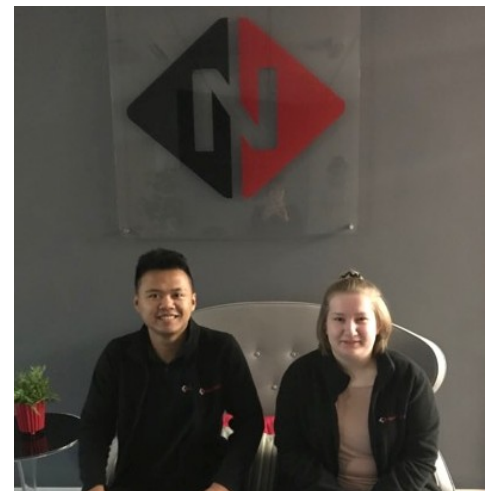

## Transit Ultimate - Ideal for High Security Industrial Application

Nedap's [TRANSIT Ultimate](#) is designed to perform in high security applications with demanding vehicular access control applications. Its technology allows the seamless monitoring of vehicle and driver activities even in harsh environmental conditions. Typical applications include: highly secured vehicle access at [airports](#), [seaports](#), [mines](#), [couriers](#) and other installations where vehicles must be assigned to specific drivers and access is required 24/7.

## Back to School - Nortech Continues to Support their Apprentices

After taking on a number of apprentices in the last year, September has seen them all progress onto their relevant college courses whilst still gaining experience alongside the Nortech engineering and sales team. The company's commitment to growth and the community has played a big part in supporting our apprentices.
